Open Science will be the focus of the 19th Annual Meeting of the German Initiative for Network Information (DINI) and Research Data Management as a field of action in universities and university libraries will be discussed here at the beginning of November 2018. The program can be found at this link: https://dini.de/veranstaltungen/jahrestagungen/2018/programm/

The poster shows qualitative research data from the humanities and social sciences. The research data can be found under the European Open Science Cloud (EOSC) (data culture, competencies, data stewardship, FAIR principles). This cloud hovers over a house that could be a data center or university with a library and data center.
Forschungsdatenmanagement und Open (?!l) Science

Bedarf nach einer institutionellen Struktur für die Archivierung und Sekundärmutzung qualitativer Daten in Deutschland (ethisch, legal).
