

Could you please introduce yourself?

My name is Daniel Gutierrez. I am a Mexican student doing a double degree in Communication and in Information Management in Social Networks. I am living in Germany because I am doing an exchange program of one semester for my degree in Communication

Why did you choose Hildesheim? And what do you think of Hildesheim or Germany?

I chose Hildesheim because it has a lot of subjects related to my field of study. Also, Germany has many things to offer in terms of culture and social communication.

I am amazed of the cultural differences Germany has, comparing to other countries that put its culture of consumerism at the top of the social priorities. Germany in the other hand has an order-based sociality. I really like how people move in a well-organized civilization.

What do you particularly like about your semester abroad?

Meeting new people from different cultures and way of thinking. It's also a new opportunity to see things from another perspective because it's another country and another continent where I face new challenges every day.

Do you have other obligations besides your studies?

Since I am living in a shared-flat I have some chores to do like cleaning the kitchen every time I use it and taking out the garbage, mopping 😊

Have you ever participated in an extracurricular course at the university?

No, but I am looking for new activities that I saw in the ESN Instagram page.

What hobbies do you have and what are your special characteristics?

I like playing tennis and basketball, spend some time with my family and friends. Reading is also one activity I love to do on my free time, and when I need a break, I like to go for a walk.

I'm an enthusiast person with a lot of personal goals. Personally, I love the idea of how easy is for me to get used to new environments and adapt myself.

What plans do you have for the future?

I'm planning to make my master's on Digital Marketing in Canada after I graduated both of my degrees in Mexico. Then I would like to make an Internship at Google's HQ.

Perfect, thank you very much and good luck for the future
