

At Grünenthal, we create a brighter future for our patients – worldwide. With us, let your passion and ideas flow and drive innovation to improve our patients' lives.

With us, challenges become opportunities and your passion and ideas can shine.

## **Graduate Global IT/ Global Business Intelligence (m/w)**

Have a look at the fulfilling work on offer:

- During 24 months you will dive into the different analytical needs within all the areas of the company that Global IT and Business Intelligence support (Finance, Commercial, Global Operations, HR, R&D, Compliance, etc.).
- Take active role in IT/ BI projects, global reporting, insight generation, planning tools.
- Be part of deployments of new IT/ BI applications within the company and communicate with technical teams.
- An experience that will help you to experience global collaboration (Headquarter, Europe, US, LatAm) as well as to be part of a truly international team with experienced mentors.

Let your talent flourish:

- You have a university degree in Math's, Business Administration, IT systems engineering or related.
- You bring a basic knowledge of programming technical applications and you are passionate for technology.
- You have first professional experience in relevant fields (e.g. internships).
- Strong communication skills, high analytical skills and a proactive attitude characterize yourself.
- Business fluent English language skills finalize your profile.
- Open to learn from different cultures.
